

# Acer Travelmate P214

## Solid, super reliable model for daily use.

Our most popular model, and we consider it the “Best Laptop Ever”. Based on our many years of experience with this series, they have proven time and again to be very durable and reliable performers. Of the hundreds we have sold only 3 have ever come back for any kind of warranty fault (and only minor ones). In the VERY rare event that your laptop needs repair we can often carry-out the repairs ourselves in a fraction of the time it takes for other stores to ship things off to Auckland.

Great for browsing the internet, using TradeMe, Facebook, YouTube or any other website. An excellent workhorse that can handle many applications open at once and do everything an office computer would need. Very reliable.

### Bundle Deal

You take your shiny new laptop home and take delight in opening the box and unpacking it. But then, it looks *really* different once you start using. Most of your things are in the wrong place or missing – and of course not a single one of your files are there.

One of the disappointing things about buying a new computer is that you end up spending hours and hours AND hours trying to get your documents and photos across, setup your email, redo your bookmarks/favourites and figure out why the printer won't install. We take the pain away for you!

Get the Bundle Deal and we'll...

- Transfer all your stuff and set things up as you like it. (there are some limits, but we'll transfer the commonly used files and settings)
- Come to your place and make sure it's working on *your* Wi-Fi
- Setup your printer(s).
- Sit down with you and run you through it to make sure we've setup things as you like it.
- Included for free also is ...
  - Malwarebytes Antivirus (a full paid version)
  - A quality Logitech mouse
  - a laptop carry bag
  - and a screen wipe kitp
  - ...and most important a CHNZ Membership for the laptop – this entitles the laptop to a free checkup every year. Just pop it in to our workshop!

PTO

**NOTE:** We'll also setup your laptop with an efficient and fresh install of Windows that doesn't include all the "bloatware" that slows your computer down before you've even got started.
